

# Tailoring apprenticeship Switzerland

## Apprenticeship as a tailor in Switzerland: starting your dream job as a tailor

*Do you like sewing and modeling? Is the rattling of the sewing machine music to your ears? Then the [Swiss tailoring apprenticeship](#) at our [Swiss Fashion Academy](#) is the perfect path for you. We are a certified training institute and ensure that you receive comprehensive and qualified training.*

If sewing and designing are your passion, the whirring of a sewing machine is music to your ears. Our Swiss Fashion Academy offers a tailor-made training program for people just like you. As a certified training institute, we guarantee you first-class and comprehensive training for a successful start to your career as a tailor.

At our academy, you will immerse yourself in the art of sewing and design under the guidance of experienced professionals. You will learn all the tricks of creating exquisite garments and master techniques that will make you stand out in the fashion industry.

With a focus on hands-on experience, you will hone your skills through practical exercises and real-life projects. Our commitment to high quality training ensures that you are well equipped to succeed in the highly competitive fashion world.

Embark on this exciting journey with us and unleash your creativity in the world of fashion through our tailor-made training program at the Swiss Fashion Academy in Switzerland.

### Duration and content of the Swiss tailoring apprenticeship

The [tailoring, sewing and modeling course](#) lasts **6 months**. It provides you with all the knowledge you need for your Swiss tailoring apprenticeship. After completing this training at our Swiss Fashion Academy, you will be able to work independently and design your own patterns. You will be able to sew garments for your customers. You can work on a self-employed basis, but you can also work for a clothing manufacturer as a quality inspector, for example. Working in the field of development is also conceivable.

You learn in small groups at our fashion school. In this way, the respective lecturer is able to **deal intensively with each student**. This is part of the successful concept of our Swiss Fashion

Academy. Learning together with people from different cultures also promotes learning success.

The Swiss tailoring apprenticeship covers **both theory and practice**. In the theoretical part, you will deal with the fundamental question: What does a tailor actually do?

You will also learn how to use the various sewing machines. You will learn about the individual functions of the household sewing machine, the overlock sewing machine and the zig-zag sewing machine.

Of course, you will also deal with the most common fabrics and learn how to identify them. This also includes learning about the different types of needles and special rulers and templates for modeling garments.

### **It then continues in practice**

This part of the Swiss tailoring apprenticeship deals with zippers, buttons and buttonholes. You will work with leather and other delicate fabrics. Among other things, you will also learn how **to sew** a hem **by hand** and learn about **cutting**.

You will acquire knowledge in the field of sleeve design and their basic design.

Of course, you will also be allowed to design your own garments during the Swiss tailoring apprenticeship. This involves cutting and designing straight skirts, classic blouses, dresses, pants and blazers. This also includes the basic modeling and adjustment of pieces according to your own ideas.

### **Completion of tailoring apprenticeship in Switzerland**

The **final examinations** take place at the end of the training. These include theoretical and practical tests as well as written assignments. These are corrected and graded by the course instructors. As coursework, each student must present a straight skirt as well as a pair of trousers, a dress and a classic blouse.

If you pass the final examination, you will receive a **certificate from the Swiss Fashion Academy**. This certifies that you have the necessary knowledge to either work independently or in an employment relationship. By successfully completing the Swiss tailoring apprenticeship, you are on the way to your dream job. Now nothing stands in the way of a successful start.

**You can look forward to qualified and fundamental training at our Swiss Fashion Academy. We will be happy to help you and give you a good start to a great career in the world of fashion.**
